Third Party Testing

The Biofield Resonator™ is still in it's infancy but we've had a few other people test it for us already. First it was sent (by one of our clients) to a Vastu expert in Malaysia along with several other EMF protection devices. Our device was the only one chosen out of the group. It was said that not only was ours the only one that worked, it was extremely powerful.

Next we tested the Biofield Resonator™ using computerized acupuncture meridian graphing software. Meridians were tested with and without the resonator on an individual and it appeared that the electrical output of approximately 80% of the meridians increased when the resonator was being held.

Since then we've had dozens of wellness practitioners and clients testing the resonator with amazing results. So far they have seen the Biofield Resonator™ "turn on" just about every acupuncture point, expand the biofield dramatically, and improve sleep quality. Some are even saying they feel it brings them luck and prosperity.

ANNOUNCING THE NEW "SOLFEGGIO" BIOFIELD RESONATOR™!

The NEW "Solfeggio" Biofield Resonator™ has arrived! It has been designed using Vastu principles and Solfeggio frequencies. Dr. Joseph Puleo rediscovered the Solfeggio frequencies in 1974 by applying Pythagorean mathematics to the Book of Genesis: Chapter 7, Verses 12-83. Since his discovery of the six sacred frequencies, 3 additional Solfeggio frequencies have been discovered. All 9 Solfeggio frequencies are included in the "Solfeggio" Biofield Resonator™. The 3, 6, and 9 are the fundamental root vibrations of the Solfeggio frequencies. Nikola Tesla once said, "if you only knew the magnificence of the 3, 6 and 9, then you would hold a key to the universe." These sacred frequencies are believed to transform grief into joy, clear negativity, remove subconscious blockages, stimulate love, restore equilibrium, repair DNA, strengthen relationships, cleanse the body of toxins, awaken intuition and help one return to spiritual balance.

The beautiful lotus design with three concentric circles is a sacred design which carries an incredible amount of energy and symbolism. The lotus flower is regarded in many different cultures, as a symbol of purity, enlightenment, self-regeneration and rebirth. In Zen Buddhist philosophy, a circle stands for enlightenment and perfection in unity with the primal principles. Circles are also symbols of the Judeo-Christian God and sanctity, appearing as haloes. In Chinese symbology, the circle represents the heavens. Circles are used as protective symbols, as a shield, and to represent the sun, moon and heavenly bodies.

I have tried many pendants, discs, resonators, etc. but never have the results been this dramatic. The "Solfeggio" Biofield Resonator™ will expand your energy field dramatically when you are in the presence of EMF's, or other electronic stressors. For those of you that know how to QRA test or use some other subtle energy testing you will be amazed. Wear daily and sleep with for improved REM sleep and enhanced dreaming. Infinite Blessings, Jayme
