

About Wei Laboratories

Wei Laboratories, Inc was founded in 2002 by Dr. Jeffery Wei and Dr. Sarah Li in Cupertino, California.

Dr. Wei earned his PhD in Biochemistry from the University of Minnesota and an M.S. in Biophysics from the Chinese Academy of Science. He graduated from the University of Science and Technology of China with a B.S. in Molecular Biology. Dr. Wei's M.B.A. was obtained from MIT Sloan School of Management. His postdoctoral training was accomplished at Massachusetts General Hospital, with a Staff appointment at Harvard Medical School.

Dr. Li obtained her PhD in Biochemistry from the University of Minnesota and her B.S. in Molecular Biology from the University of Science and Technology of China, where she received the Guo Moruo Award, the highest honor. She completed her postdoctoral training at Harvard Medical School and Beth Israel Hospital.

Dr. Wei and Dr. Li were early participants in alternative medicine research. They guide Wei Laboratories using a rigorous clinical research approach and make the benefit of the research findings available to the general public through product development and commercialization.

We are committed to providing the best possible care to patients using an integrated medical approach. We focus on enabling healthcare professionals to provide holistic care to their patients. By partnering with healthcare professionals, we enable them to improve patient's health through our holistic care programs based on our innovative natural products, protocols, and services.
